Enrolment of Children at TISOL

Thank you for expressing interest in enrolling your child/ren at The International School of Lae (TISOL). We pride ourselves on providing a high standard of education for students of all nationalities and backgrounds, preparing them to succeed at an international level.

Parents enrolling their children at TISOL have the option of two excellent educational programs; the TISOL Standard program and the TISOL Plus program. ALL students of TISOL share the following resources:

- Ø An international curriculum in the areas of English Language, Mathematics, Personal Health and Development, Social Studies, Science, Languages Other Than English, Library Skills and Technology.
- Ø Fully-trained and well-experienced Papua New Guinean and International teachers who are registered with the International Education Agency.
- Ø Specialist teachers in the areas of Visual Arts, Music, Physical Health and Development and Technology (Computing)
- Ø A 20 station computer lab with free, supervised access to the internet.
- Ø Classroom Assistants, many of whom are trained to the level of TAFE Certificate III in Child Services. These staff support classroom teachers in providing small-group learning experiences which are tailored to the individual needs and abilities of students.
- Ø The most well-resourced children's educational library in the region, including vast collections of fiction and non-fiction texts, videos, DVD's, teacher resources, posters, Big Books, math and science manipulative resources and other materials to support a comprehensive literacy development program.
- Ø 20m swimming pool with a shade cloth to protect students from sun-exposure.
- Ø Fully supervised play areas including large sporting fields, basketball courts, netball courts, several age-appropriate playground structures and many shaded picnic areas.

Parents who chose to enrol their children in the TISOL Plus program secure the following additional resources for their child:

- Ø English Language programs taught by First Language English Speakers.
- Ø Smaller class sizes with a maximum of 25 students per classroom teacher and the provision of Classroom Assistants in each class to ensure that student: staff ratios are reduced even further.
- Ø Priority access to specialist staff and resources.
- Ø Larger classrooms.

Both programs have mixed nationalities representing the school's motto 'UNITED WE LEARN'. Parents choose programs to enrol.

Should you require any additional information or have any questions, please do not hesitate to make an appointment to speak with our Principal. We look forward to assisting you further in securing the best possible education for your child/ren.
